No Small Acts in Complex Systems

September 15, Sunday, 10:30-11:30a – Systems Theory and Complexity Theory are all about how dynamic parts make up dynamic wholes, and parts and wholes influence each other. These complex systems – like weather, culture, traffic – are where we see things like the famous "Butterfly Effect". The good news is that because we are part of complex systems, such as Gaia and the human race, nothing we do is insignificant. Join us this morning to discover just how significant you really are and how to tap the power of your part of a dynamic unfolding process. –Rev. Fa Jun, Minister

9/11 Multifaith Peace Picnic & Prayers

Please join us **Wednesday, September 11, 6-8pm** to mark this day for friendship, solidarity, and peace! UUFLG is co-hosting the 9/11 Multifaith Peace Picnic and Prayers again this year. This annual multifaith gathering is held at **King Plaza, 250 Hamilton Ave., Palo Alto**. The picnic begins at 6p followed by a program at 6:45p. Both are hosted by American Muslim Voice in partnership with Multifaith Voices for Peace & Justice and others. This year there will be just one program with prayers and words for peace from diverse faith traditions, music, singing and children's choirs. Everyone is welcome! Please let Sue Ann Lorig (our Social Actions Committee co-chair) know if you're going. Visit multifaithpeace.org/article.php/201907162255558 for further information.

September Shared Plate Beneficiary

The offertory **this Sunday, September 15** (except for checks and envelopes marked "pledge") will go to the Walden West Foundation.

Using the Next Generation Science Standards for California Public Schools (CA NGSS), Walden West provides education through hands-on learning in outdoor classrooms with experienced naturalists.

The week-long, residential, outdoor school for 5th & 6th graders, along with summer camp programming, provides children an opportunity to learn about natural sciences, sustainability, and environmental stewardship.

Walden West serves 15,000 students annually and reaches students of all ages, pre-kindergarten through high school.

Donations directly provide access to outdoor science education which leads to a life-long passion for science and engineering. Visit waldenwestfoundation.org to learn more.

Honoring the Community of All Life

What would it look like to live in a human society that honored all life? Our UU principles hold dear a "respect for the interconnected web", but does this always inform our other principles, such as valuing democratic processes or encouragement in our personal spiritual path? This morning, we'll experiment with adopting new perspectives and thinking outside the box that we've been given through culture-at-large. We will learn to speak for the unheard voices of the world so that we may truly learn to live in balance. –Rev. Fa Jun, Minister
